ABOUT US

Established in February 2016 as a provider of integrated offshore subsea services to the oil and gas industry for the American Region (Central and North America and South America).

It operates through its base office located in Houston which is an established Hub for the Oil and Gas activities in the region. DDS has access to a wide range of diving units for shallow and deep water interventions, ROV Systems, Underwater hydraulic & Pneumatic tools, NDT equipment and a fleet of Diving/ROV Support Vessels.

We commit ourselves to follow the latest Safe Industry Practices including the Guidelines and Recommended Practices circulated by International Marine Contractors Association (IMCA) and International Association of Oil and Gas Producers (OGP).

CORPORATE VISION

"We aspire to be a respectable subsea contractor in the American Regions by the end of 2020."

MISSION STATEMENT

"To be a midsize subsea contractor in next 3 to 5 years by operating group owned assets, developing internal resources and achieving a respectable revenue."

QUALITY POLICY

"Development Diving Services LLC strives to position itself as the preferred subsea contractor by providing solution and support, for execution of Marine, ROV and Diving projects, and maintaining its quality of services that meets and exceeds client's requirements.

All activities at DDS will, at all times, comply with statutory, regulatory and obligatory requirements as applicable.

We will achieve excellence in all our business processes by defining objectives and working towards time bound completion. We will take prompt action on observed deviations, and lessons learnt will be used to redefine our practices, policies and procedures for continual improvement.

DDS management constantly reviews the skills and competence of employees, marine crew, and project team and provides for required training to excel in deliverables. We proactively team up with our subcontractors and involve them to deliver value for money to our projects. DDS only strategy for growth is to provide a platform for inclusive development of all stakeholders."

HSE POLICY

Development Diving Services LLC is committed to actively promote and ensure health and safety at all its worksites by preventing injuries, protecting the environment and avoid damage to property.

Though HSE is a line responsibility, the top management of DDS takes the ultimate accountability for all HSE matters in the company. DDS ensures that this policy is implemented and maintained at all levels of the organization both onshore and offshore.

DRUG, ALCOHOL AND SUBSTANCE ABUSE POLICY

Development Diving Services strictly prohibits consumption or being under influence of drugs, alcohol or any intoxicating substances that would impair the performance of work and pose a threat to health, safety, legislations or work environment.
